

Kforex Scalping

Thanks for purchasing the new indicator Kforex Scalping

Please follow the instruction bellow:

1) first you need to put the indicator and template on the MQL4 file (Please watch the video tutorial)

2) Second is in terms of using the indicator properly

- Buy signal condition:

When we have blue in the histogram under 0 line

The SL is under the last candle by 10 pip or more TF or by your money management

The TP is opened until we have the next Sell signal or by money management like by risk: reward ratio

- Sell signal condition:

Same thing like Buy signal

Red histogram above the 0 line

SL above the candle by few pips TF by your money management

TP opened or by risk: reward ratio

Note: the indicator does not work well in timeframe like M1

I recommend M5 and above and this indicator can be used in swing trading like H4 and above
