

“Forex Triple Hit Assistant”

User's Guide

by Rita Lasker

www.forextriplehit.com

I am Rita Lasker, the Head of Green Forex Group which is my team of programmers and professional currency market traders. *Thanks for choosing our product and trusting our team!*

We have prepared something truly amazing for our beloved Members. Take full advantage of the latest technologies embodied in our new products – **Forex Triple Hit** and **Forex Triple Hit Assistant**. Perfect tool combo for traders who value their time and uprising opportunities.

**Yours, Rita Lasker &
Green Forex Group**

MUST FOLLOW RULES!

Rule 1: Every time you finish using "Forex Triple Hit Assistant" – please make sure to close MT4 completely or close all the trading charts where "Forex Triple Hit Assistant" is attached. Avoid putting your computer to sleep mode/hibernation while MT4 is open and "Forex Triple Hit Assistant" is attached to any trading charts.

Rule 2: Never close MT4 completely or close any of the trading charts where "Forex Triple Hit Assistant" is attached when you have any active trades. Wait for all trades to close first.

Rule 3: Never go in the "Forex Triple Hit" or "Forex Triple Hit Assistant" inputs, change timeframe or pair after entering the trade. Wait for the trade to close first.

Rule 4: If you attached to a chart and already start to use "Forex Triple Hit Assistant", do not switch timeframes. Otherwise, changing the timeframe directly on the chart with attached "Forex Triple Hit Assistant" could hinder the Assistant's work and cause its failure and incorrect functioning.

Rule 5: Please practice using the Indicator and the Assistant on a demo account first. Only move to trading on a live account, once you are completely familiar with Forex Triple Hit KIT and fully understand all the simple rules on how to use it correctly.

Rule 6: Do not use the tools on a flat market! Use the software ONLY during active market hours – for example London session, US session.

Rule 7: Before loading the Indicator and Assistant or while in a trade, make sure to check news calendar like this one: <http://ec.forexprostools.com> (CTRL + D to bookmark it): It's better to trade when there are no news announcements or when there is news only with low importance.

If you are already in a trade and see that there is a highly important news announcement coming out soon (that affects the pair you are trading on) - exit the trade as soon as possible.

The above calendar shows 1 image of a bull for news with low importance, 2 bulls for medium importance and 3 bulls for high importance.

IMPORTANT NOTES

Note 1: First attach "Forex Triple Hit" Indicator to a chart and only then attach "Forex Triple Hit Assistant". Of course, your license of "Forex Triple Hit Assistant" also has to be activated first.

Never attach instruments in the reverse order. Otherwise, "Forex Triple Hit Assistant" will not work or it will work incorrectly.

Note 2: Do not attach the Indicator and the Assistant to the charts with an opened order. Open a new chart and attach the "Forex Triple Hit" indicator and the "Forex Triple Hit Assistant" there.

Note 3: NEVER rename the file of Forex Triple Hit Assistant.

The name must be exactly: "**ForexTripleHitAssistant.ex4**". Otherwise, both "Forex Triple Hit" and "Forex Triple Hit Assistant" will not be able to work together.

Note 4: This product works on MT4 platform only. Trading tools created specifically for MT4 will not work on MT5 due to differences in the programming language.

Note 5: Make sure to update your MT4 to the latest build. "Forex Triple Hit Assistant" is designed to give you best results and to work properly only with the latest version of MT4 platform.

Note 6: Due to the peculiarities of a MT4 platform, to display the indicator signals correctly, you need to download the quotes of the currency pairs you are working with. If you change your MT4 account, the quotes should be downloaded again.

Note 7: Attach the indicator to the chart window after you've activated it on license.karldittmann.com otherwise it can work improperly.

Activation of Your Product

This product will only work on a single trading account. You need to connect your Invoice ID or Order ID with your Trading Account Number.

Here is how it's done:

Step 1) Open your MT4 and write down your Trading Account Number. It is written in the very upper left corner of the MT4 window.

NOTE: If you have been looking for a reliable and honest broker, look no further. I have been trading with **FX Choice** for a while now and I am extremely happy with their service.

Open a live account right now and receive a one-time **15% deposit bonus** by following this link: <https://my.myfxchoice.com/registration/>

Step 2) Write down your Invoice ID or Order ID:

- Invoice ID is a unique number generated by **PayPal** at the time of your order. It consists of 8 symbols (Example: 9b7a22z9). Don't know your Invoice ID? Just check your inbox for an email from PayPal and find it in the lower left corner of the email.

- Order ID is a unique number generated by **ClickBetter** at the time of your order. It consists of 10 numbers (Example: 0123456789). Don't know your Order ID? Just check your inbox for an email from ClickBetter and find it there.

- Order ID is a unique number generated by **Digistore24** at the time of your order. It consists of 8 symbols (Example: QNU706MS). Don't know your Receipt Number? Just check your inbox for an email from Digistore24 and find it there.

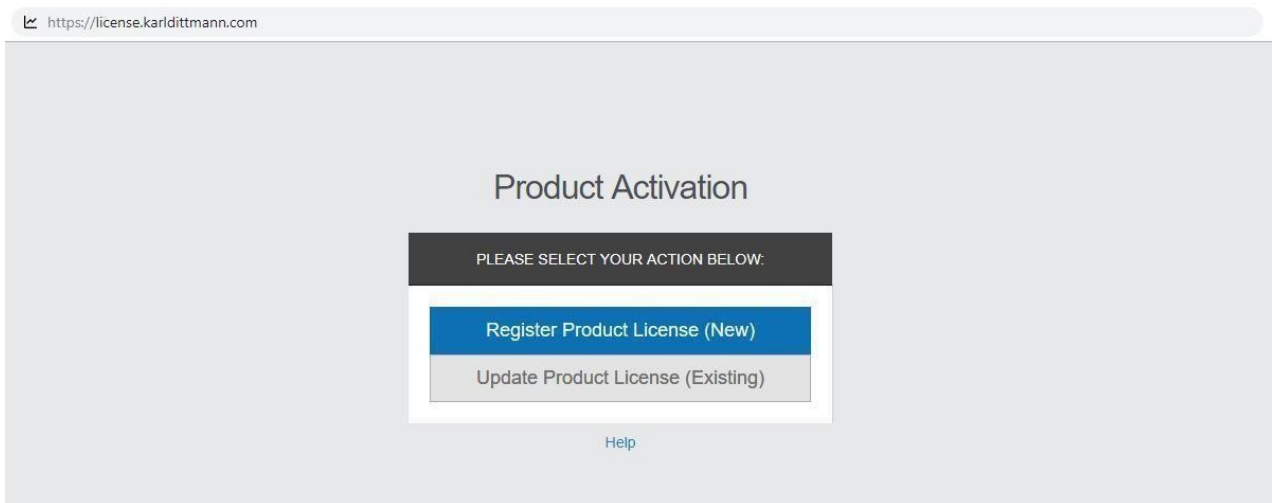

IMPORTANT: If you've purchased "Forex Triple Hit Assistant" as a part of a KIT (2 products in 1 transaction) - you only have 1 Invoice ID/Order ID. This Invoice ID/Order ID will only work for activation of "Forex Triple Hit". In order to activate "Forex Triple Hit Assistant", simply add "_upsell" right after your Invoice ID/Order ID.

Example: Your Invoice ID/Order ID is XXXXXX.
Use XXXXXX_upsell to activate Forex Triple Hit Assistant.

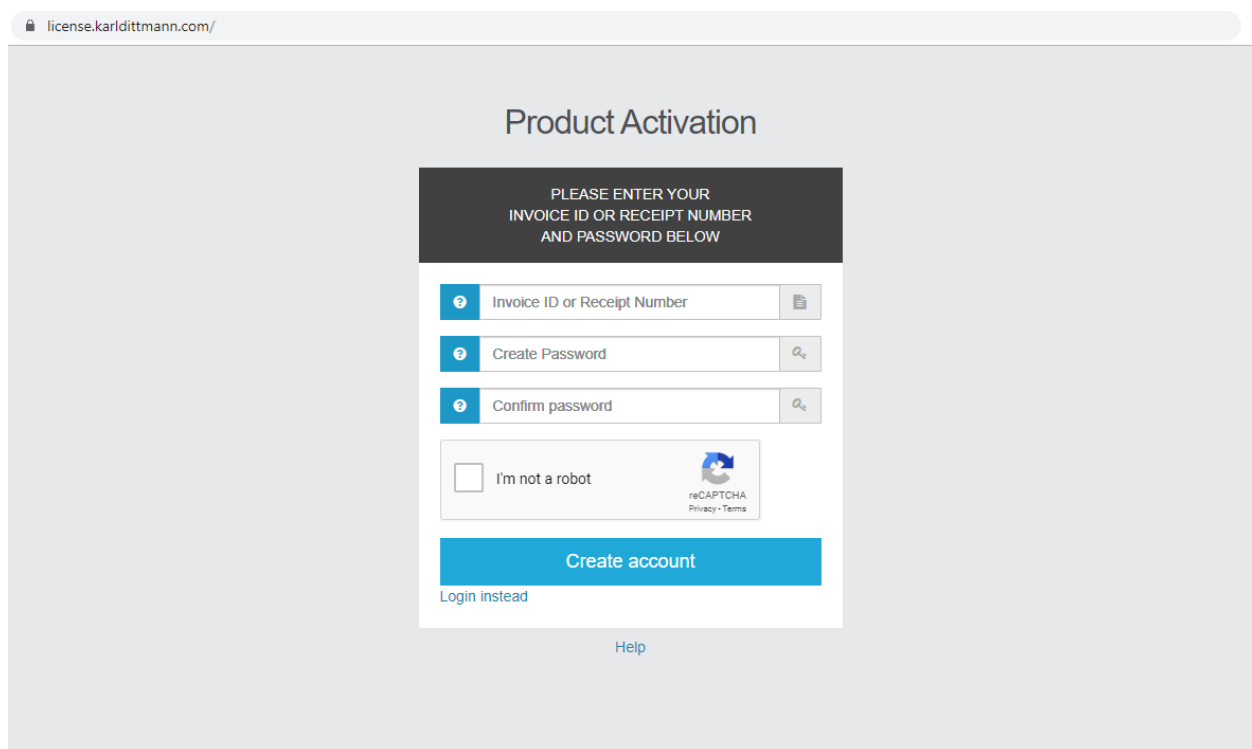

If you need help, please contact me via email rita@ritalasker.net
Please make sure to include the exact email address used for the purchase.

Step 3)

- Go to www.license.karldittmann.com
- Click on "Register Product License (New)"

- You will arrive at the page shown below:

- Enter your Invoice ID or Order ID (click on "?" if you are not sure what you should enter)
- Enter the password (make sure to write it down)
- Repeat the password
- Click "I'm not a robot"
- Click "Create account"

Step 4) You will arrive at the page shown below:

Set MT4 number

Receipt:

MT4 account:

MT4 account

Remaining attempts: 2

Please enter your MT4 trading account number above. Remember to save your changes by clicking "Save" button below.

Save

Now, simply enter Your Trading Account Number and click "Save"

Reminder: Your Trading Account Number can be found in the upper left corner of the MT4 window.

Updating Account Number

Step 1)

- Go to www.license.karldittmann.com
- Click on "Update Product License (Existing)"

https://license.karldittmann.com

Product Activation

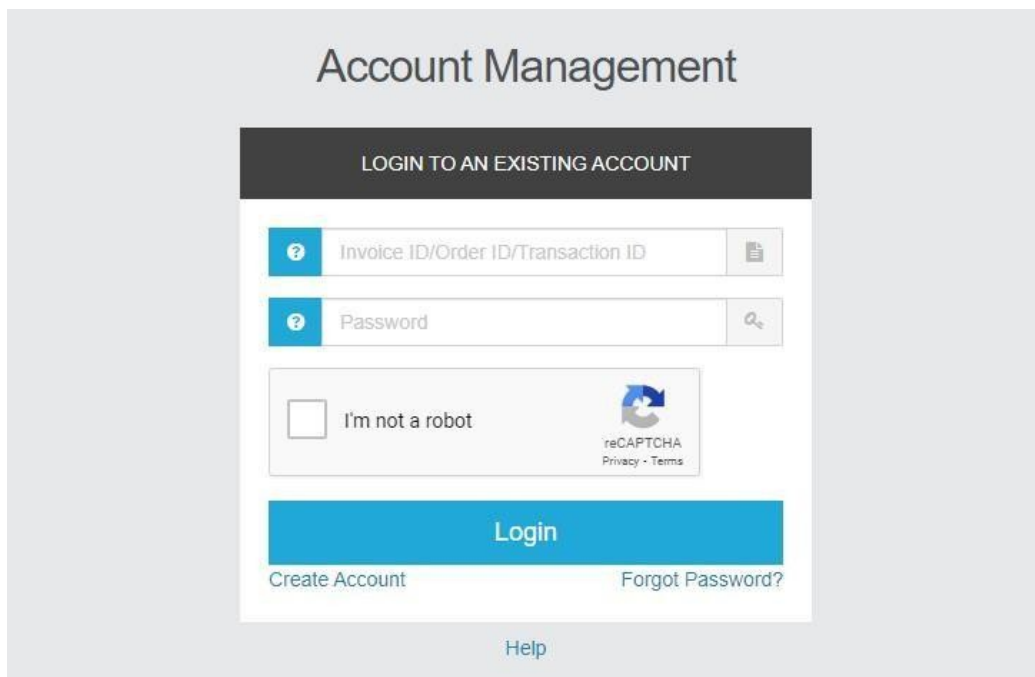

PLEASE SELECT YOUR ACTION BELOW:

Register Product License (New)

Update Product License (Existing)

Help

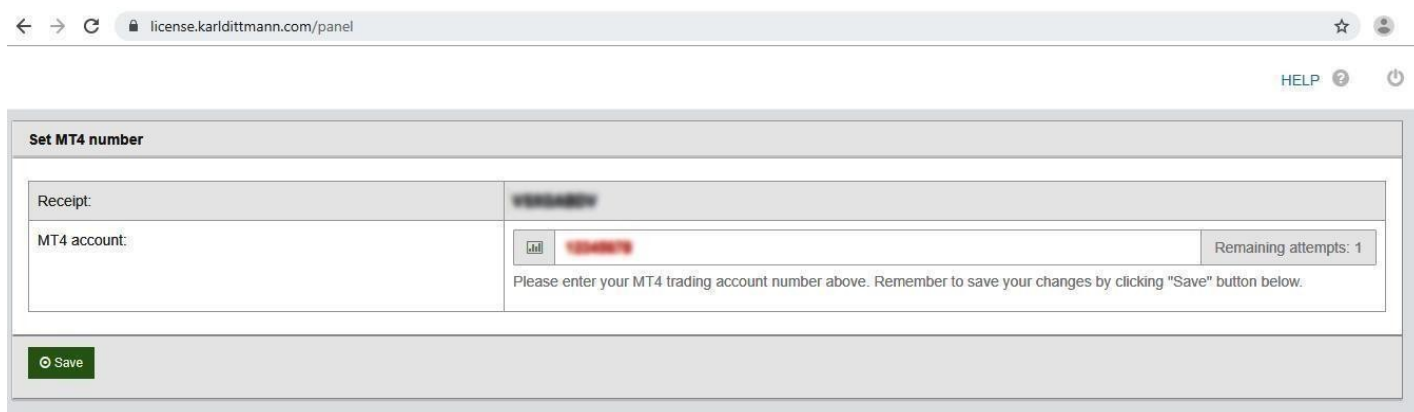

Step 2) You will arrive at the page shown below:

The image shows a web page titled "Account Management". At the top, there is a dark grey button labeled "LOGIN TO AN EXISTING ACCOUNT". Below this, there are two input fields: "Invoice ID/Order ID/Transaction ID" and "Password". Each field has a blue question mark icon on the left and a small icon on the right (a document for the first field and a magnifying glass for the second). Below the password field is a reCAPTCHA section with a checkbox labeled "I'm not a robot" and a reCAPTCHA logo with links for "Privacy" and "Terms". At the bottom of the form is a large blue "Login" button. Below the "Login" button are two links: "Create Account" and "Forgot Password?". At the very bottom of the page is a "Help" link.

- Enter Your Invoice ID or Order ID (click on "?" if you are not sure what you should enter)
- Enter your password (password used during registration)
- Click on "I'm not a robot"
- Click on "Login"

Step 3) You will arrive at the page shown below:

The image shows a web browser window with the address bar displaying "license.karldittmann.com/panel". The page has a "HELP" link and a power icon in the top right corner. The main content area is titled "Set MT4 number". It contains a form with two input fields: "Receipt:" and "MT4 account:". The "MT4 account:" field has a red "X" icon and a "Remaining attempts: 1" label. Below the input fields is a message: "Please enter your MT4 trading account number above. Remember to save your changes by clicking 'Save' button below." At the bottom of the form is a green "Save" button.

Now, simply delete the previous Trading Account Number, enter the new one and click "Save"

NOTE: You only have 2 Attempts to enter your Trading Account Number. If you run out of attempts and need to change your Trading Account Number again, please contact me via email rita@ritalasker.net Please make sure to include your order details.

Installation of Your Product:

Step 1)

Unzip the zip file that you have downloaded:

You will see the file named **ForexTripleHitAssistant.ex4**

Step 2)

1) Open your MT4 platform

2) Click File — Open Data Folder. Here you will find a folder called MQL4.

3) Open MQL4 folder. Here you will find Indicators folder. Copy your **ForexTripleHitAssistant.ex4** file into MQL4/**Experts** folder. Do this by right clicking on the file and clicking —copy and then —paste.

4) Restart your MT4.

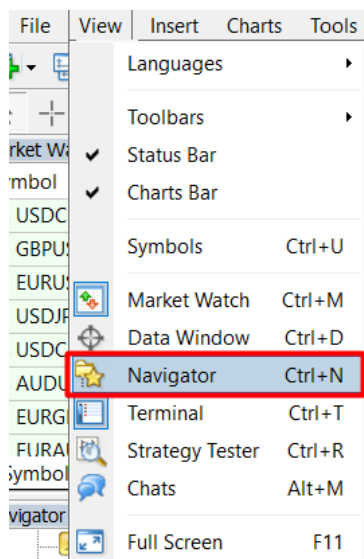

If you have any difficulties, please contact me
via email: rita@ritalasker.net

Step 3)

Open the MetaTrader® platform,
and click on View -> Navigator.

You can also press CTRL+N.

Click on 'Navigator' →

Step 4)

A window titled 'Navigator' will
appear. Double click on Expert
Advisors.

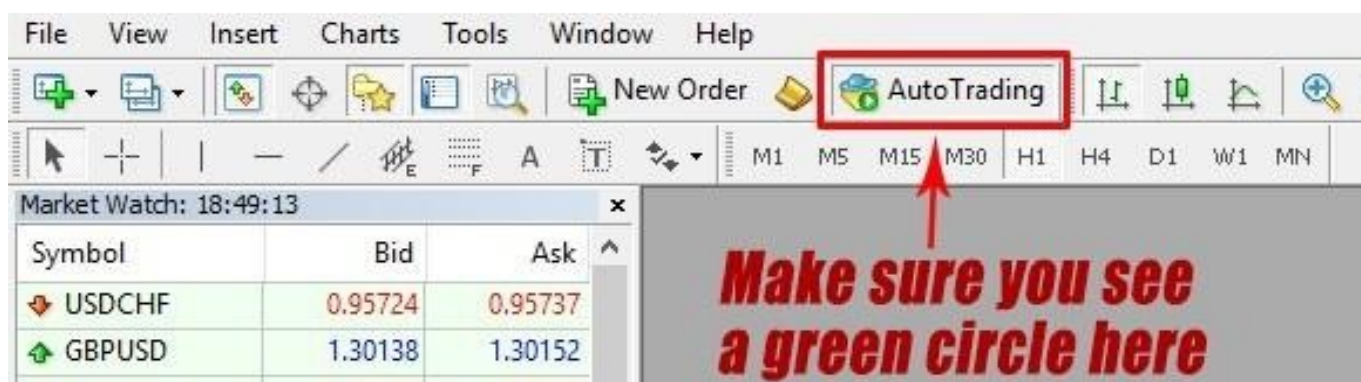

Step 5)

You should now see the **ForexTripleHitAssistant** in the Expert Advisors folder. Your license of "**Forex Triple Hit Assistant**" also has to be activated.

Step 6) Once you attach "**Forex Triple Hit Assistant**" to a chart of your choice, make sure to enable the options as shown below and only then click OK.

Step 7) Next, we need to activate "AutoTrading" option located in the upper part of the MT4 terminal, as shown on the screenshot below. When this option is activated – there is a green circle with a "Play" symbol on it. When it's deactivated – there is a red circle with a "Stop" symbol.

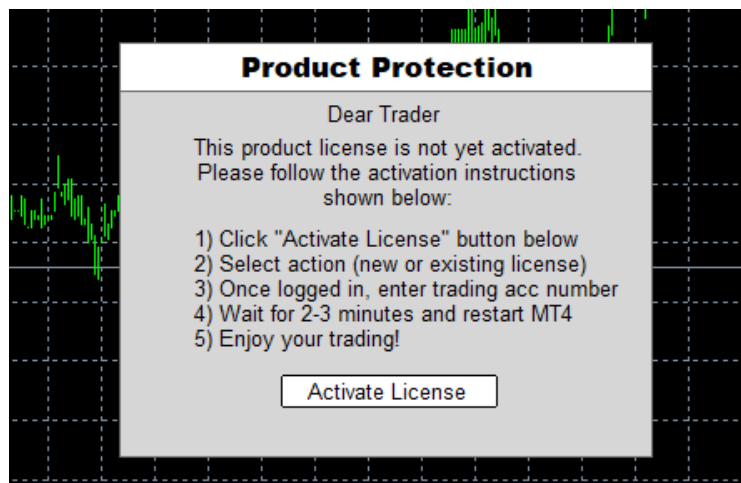

Step 8) If everything was done correctly, you will see a happy face symbol in the right upper part of the chart with "**Forex Triple Hit Assistant**" attached. It means that everything will be working properly. (Unless you didn't put "**Forex Triple Hit**" indicator on this same chart.)

In case there was a mistake during setup, you will see a sad face symbol. In such scenario, please start over again. Make sure to carefully follow the step-by-step instructions. If you still experience any difficulties, please contact me via email rita@ritalasker.net or fill out this [contact form](#). I will do my best to help you.

Step 9) If the following message box appears on your chart, click on "Activate License" button and follow the activation instructions shown below.

Step 10) Done. Enjoy your trading!

IMPORTANT:

Please be advised that for the product to work, your order must remain active. Refunding the product will deactivate its license immediately.

If you need any assistance, please contact me via email:
rita@ritalasker.net

I would love to help you.

Timeframes and Pairs

-M15, M30 and H1 only.

-Works on all major pairs

Best results on EURUSD, USDJPY, GBPUSD, USDCAD, EURJPY, GBPJPY, NZDJPY.

How Does Forex Triple Hit Assistant Work?

BUY/SELL Signal Examples

BUY Signal Example:

FOREX TRIPLE HIT ASSISTANT		
BUY SIGNAL		
Lot: <input type="text" value="0.01"/>	<input type="button" value="Enter Now"/>	@1.27276
Stop Loss: <input type="text" value="150"/>		GBPCCHF M15
<input type="checkbox"/> OFF <input checked="" type="checkbox"/> ON Take Profit: <input type="text" value="-"/>	<input type="button" value="Don't Enter"/>	Signal Time: 12:30
This Window Will Close in 14 min 25 sec		

SELL Signal Example:

FOREX TRIPLE HIT ASSISTANT		
SELL SIGNAL		
Lot: <input type="text" value="0.01"/>	<input type="button" value="Enter Now"/>	@117.059
Stop Loss: <input type="text" value="400"/>		CHFJPY H1
<input type="checkbox"/> OFF <input checked="" type="checkbox"/> ON Take Profit: <input type="text" value="-"/>	<input type="button" value="Don't Enter"/>	Signal Time: 12:00
This Window Will Close in 14 min 48 sec		

The Assistant window stays active for 15 minutes.

It disappears in 15 minutes from the moment it was displayed.

What it All Means

1 FOREX TRIPLE HIT ASSISTANT

5 BUY SIGNAL

2 Lot: **9** Enter Now **6** @0.9097499999999999

3 Stop Loss: USDCHF M15 **7**

4 ☐ OFF ☒ ON **Take Profit:** **10** Don't Enter **8** Signal Time: 10:00

11 This Window Will Close in 14 min 21 sec

1) Name of the Expert Advisor

2) Lot Size. Set to 0.01 by default (recommended). Can be changed for each trade individually by typing in a different value and hitting "Enter" on keyboard.

Alternatively, if you set the Lot size in the Expert's properties, this set value will be automatically used for all future trades on the current trading chart (this will work until the chart is closed).

3) Stop Loss – Set automatically depending on the timeframe.

TIP 1 (Optional): You can set custom StopLoss for each trade individually - by entering the desired value in the StopLoss value field and then hitting "Enter" on your keyboard.

TIP 2 (Optional): You can also set custom StopLoss for all future trades on a selected trading chart (this will work until the chart is closed) – by entering the desired value in the "Forex Triple Hit" indicator inputs. This must be done individually for each timeframe. "Forex Triple Hit Assistant" will copy these values for every trade on that same chart. This procedure must be done separately for every new trading chart.

The default Take Profit and Stop Loss values are recommended for 5-digit brokers only. If you are using a 5-digit broker and you decide to change StopLoss or TakeProfit, just remember to follow this formula: 100=10 Pips.

If you are using a 4-digit broker, please remove 0 from each value. For example, default TakeProfit M15 is 300 in settings, so make it 30. Follow this formula: 30=30 Pips.

Remember to hit "Enter" on your keyboard after changing this value.

4) Take Profit – set to OFF by default. When Take Profit is OFF, expert will automatically exit the trade once an opposite signal is generated.

If you don't want to exit at the next opposite signal and prefer to exit once the Take

Profit is reached – please click the ON button (Marked with “4” on the screenshot). This will activate Take Profit and show default value.

This is how it looks when Take Profit is enabled:

FOREX TRIPLE HIT ASSISTANT

SELL SIGNAL

Lot: @148.659

Stop Loss: GBPJPY M15

Take Profit: Signal Time: 10:30

This Window Will Close in 12 min 24 sec

The default Take Profit and Stop Loss values are recommended for 5-digit brokers only. If you are using a 5-digit broker and you decide to change Stop Loss or Take Profit, just remember to follow this formula: 100=10 Pips.

If you are using a 4-digit broker, please remove 0 from each value. For example, default TakeProfit M15 is 300 in settings, so make it 30. Follow this formula: 30=30 Pips.

Remember to hit “Enter” on your keyboard after changing this value.

To switch back to exit on the next opposite signal, click OFF button near Take Profit.

5) Current Signal

6) Entry Price

7) Currency Pair, Timeframe

8) Time when the signal was generated

9) Enter Now – If you click this button, the order will be opened immediately. It will be closed automatically at the next Opposite Signal or once a specified Take Profit level is reached – whatever you choose.

FOREX TRIPLE HIT ASSISTANT

SELL SIGNAL

Lot: 0.01

Enter Now

@117.059

Stop Loss: 400

CHFJPY H1

OFF

ON

Take Profit: -

Don't Enter

Signal Time: 12:00

This Window Will Close in 14 min 48 sec

10) Don't Enter - Click this button if you do not need to open order now.

FOREX TRIPLE HIT ASSISTANT

SELL SIGNAL

Lot: 0.01

Enter Now

@117.059

Stop Loss: 400

CHFJPY H1

OFF

ON

Take Profit: -

Don't Enter

Signal Time: 12:00

This Window Will Close in 14 min 48 sec

11) Timer – shows the time left until this window will close.

Recommendation: Using preset values for Lot, Stop Loss and Take Profit is optimal and recommended. Change them only if you are confident in your suggestions and actions.

Input Parameters

How to open "Forex Triple Hit Assistant" Inputs:
Select your chart – Press F7 on your keyboard – Select Inputs tab.

Lot – Changes the default Lot Size for all future trades on the selected currency pair (this will work until the chart is closed). Set to 0.01 by default.

Money Management Rules:

Money management is a very important concept that has an enormous effect on drawdown and margin calls. Some of the main rules of money management are the following:

Rule 1) Never risk more than 1-3% of your deposit on any single trade.

You may have heard this rule a hundred times before, but it is amazing to see how many good traders fail to comprehend this concept – and don't understand why they are wiped out again and again, despite great entries and timing of trades.

Stoploss is calculated regardless of your level of risk or your equity, and is based solely on price-action. After deciding on the Stoploss, enter it together with your deposit size and desired Risk % in a Lot Size calculator.

To calculate Lot Size, you can use this online calculator:

<https://www.myfxbook.com/forex-calculators/position-size>

Rule 2) Never gain/lose more than 10% of your deposit in any single day.

1) For example, your deposit is 100%.

2) Each trading day should either result in a 10% gain or 10% loss. Never more than 10%.

3) Let's imagine that out of 5 trading days, we had 3 profitable days (10% gain each day) and 2 losing days (10% loss each day).

4) According to this example, by the end of the trading week we would have made 10% profit. Here is the formula:
 $100\%(\text{Deposit}) + 30\%(\text{Profitable Days}) - 20\%(\text{Losing Days}) = 110\%$

If we didn't use this method, some of our losing days could have resulted in more losses (for example 15% or 25%) and in the end of the trading week we could have been left with poor results.

I hope now you understand why it is important to never gain or lose more than 10% of your deposit in 1 trading day. Never try to double your deposit in 1 day and always stop trading if you have lost 10% of your deposit. Slow and steady wins the race.

Rule 3) Never use Martingale Strategy!

This is a very unsafe money management strategy that promotes increasing Lot Size after every loss. At first, this might seem as a good method to cover a previous loss and make profit, but actually, it almost always leads to burning entire deposits.

"Forex Triple Hit Assistant" is secured from unauthorized usage. Just a reminder – we allow each product copy to be used **on 1 trading account only.**

Interested in more than 1 trading account?

Exclusive Offer for "Forex Triple Hit" Members Only!

Contact me by email and I'll be happy to provide you with a superb **50% OFF DISCOUNT.**

50% OFF

Note: If you purchased one copy of the product for a full price and another one with a special 50% discount, in case of refund, the conditions will be as follows. If you want to renounce one of the copies and get a refund for it, the money will be returned back for the copy you purchased with 50% discount i.e. at a lower cost.

Happy trading!
